BOOST YOUR REWARDS THROUGH THE THRILLING MULTIPLIER VERSION OF XOC DIA

Ultimate Flip is a game inspired by Vietnamese culture, played with four chips, each having a red side and a white side.

The chips are placed on a plate, covered with a bowl, and shaken to mix them up. Players must predict which side up the chips will land once they've been shaken and the bowl has been lifted to reveal the result.

There are multiple betting options, including all red, all white, three red, three white, two of each, or combinations based on even (2 and 4) or odd

numbers (1 and 3). The game blends chance with strategy, making it both simple and exciting.

With each round, Ultimate Flip adds a unique twist by randomly boosting one or more payouts up to 50:1. If a player wagers on a combination where a multiplier appears, their payout is boosted, enhancing the thrill of the game.

Inspired by Vietnamese traditions, Ultimate Flip offers an authentic and engaging gaming experience.

HOW TO PLAY

The objective of Ultimate Flip is to predict the arrangement of four chips, each with a red side and a white side after the bowl is lifted. If your prediction matches the final arrangement of the chips, you win.

BETTING PHASE

Start by placing your bets on the available combinations—All Red, All White, a Mix, Even, or Odd.

PAYOUT BOOST PHASE

After bets close, payouts are randomly boosted up to 50:1. Up to 5 multipliers can be generated per game round and are applied to different bet spots, excluding the Even and Odd bets.

THE RESULT

Once the boosted payouts are set, the game presenter will cover the plate with a lid and shake it. After shaking, the lid is lifted to reveal the chip arrangement. If the arrangement matches your chosen bet, you win!

If you have wagered on a bet spot that has been assigned a multiplier, your payout will be multiplied accordingly.
