

A man with a mustache, wearing a white tuxedo jacket and a black bow tie, stands behind a green Three Card Poker table. The table has a gold border and a small logo that says "THREE CARD POKER". The background features a brick wall with circular light fixtures and a display of vinyl records. To the right, there are several tall, cylindrical light fixtures. The overall atmosphere is that of a classic casino.

## HOW TO PLAY

### PLACE THE ANTE BET

The player must place an initial Ante bet to participate in the round. The objective of Three Card Poker is to have a higher-ranking three-card Poker hand than the dealer's hand.

### TWO OPTIONAL SIDE BETS

The player may also bet on one or both side bets – the 'Pair or Better' bet and the '3+3' Bonus bet. This gives the chance of bigger payouts of up to 1000:1. The side bets are evaluated separately at the end of each game round, and each bet provides an entirely separate chance to win from the main bet.

### THE DEALING OF THE CARDS

The player is dealt three cards (face up), and the dealer is dealt three cards (face down).

### PLAY BET OR FOLD

After examining their three cards, each player must make a Play bet (equal to their Ante bet) or Fold (i.e. decide not to continue and therefore forfeit their Ante bet).

In the main game, the highest-ranking hand wins, and the dealer must have a 'Queen High' or better to qualify.

### GAME OUTCOMES (MAIN GAME)

- If the dealer has less than ‘Queen High’, the Play bet pushes, and the Ante bet is paid 1:1
- If the dealer qualifies to play, the player’s hand is compared with the dealer’s hand, and the higher-ranking Poker hand wins
- If the player has the higher-ranking Poker hand, the Ante and Play bets both pay 1:1
- If the dealer has the higher-ranking Poker hand, the player loses both his or her Ante and Play bets
- If the player and dealer tie (i.e. they have equal-ranking Poker hands), the Ante and Play bets are a push
- If the player gets a Straight or better, the player receives an Ante Bonus, regardless of the value of the dealer’s hand. Please note that the player has to place a Play bet to receive the Ante Bonus.

### SIDE BET: ‘PAIR OR BETTER’

The player must make a ‘Pair or Better’ out of their three dealt cards.

### SIDE BET: ‘3+3’ BONUS

The player must make a winning five-card Poker hand using their three cards and the dealer’s three cards. This bet pays on ‘Three of a Kind’ or better, as shown in the ‘3+3’ Bonus bet payout table.

The side bets are separate from the Ante and Play bets in the main game; they pay entirely based on the value of the player’s hand.
