# SUPER-FAST AND SIMPLE TWO-CARD GAME

Casino card games don't come any easier than Dragon Tiger, and our world-class live online version is, quite simply, the best.

Beautifully simple yet distinctly different, Ezugi's Dragon Tiger is a super-fast card game set in a stunning themed environment.

Just two cards are dealt – the Dragon and the Tiger. All the player has to do is to make a bet on which card will be higher (King is the highest card, and Ace is the lowest). Alternative side bets may also be made on a Tie or a Suited Tie. The cards are dealt from a shoe with eight decks.

Game rounds are fast, so there's always a new game round coming right up to maintain players' interest.

Enriching the basic gameplay are comprehensive statistics and Baccarat-like roads to help players predict the outcome of future rounds. How far players explore these roads is, of course, entirely down to each individual player. Sure to appeal to the widest range of players, from novices to enthusiasts, Dragon Tiger further extends our card game portfolio with a proven land-based favourite.

## HOW TO PLAY

### LIVE BETTING STATISTICS

Players can see the total wager placed on a particular bet spot, as well as the number of players who placed bets on the spot.

The percentages of all bets placed on the Dragon, the Tiger, the Tie and Suited Tie Bets are displayed, and everything is updated in real-time.

The player can choose to hide these statistics by going to Settings.

### SCOREBOARDS (ROADS)

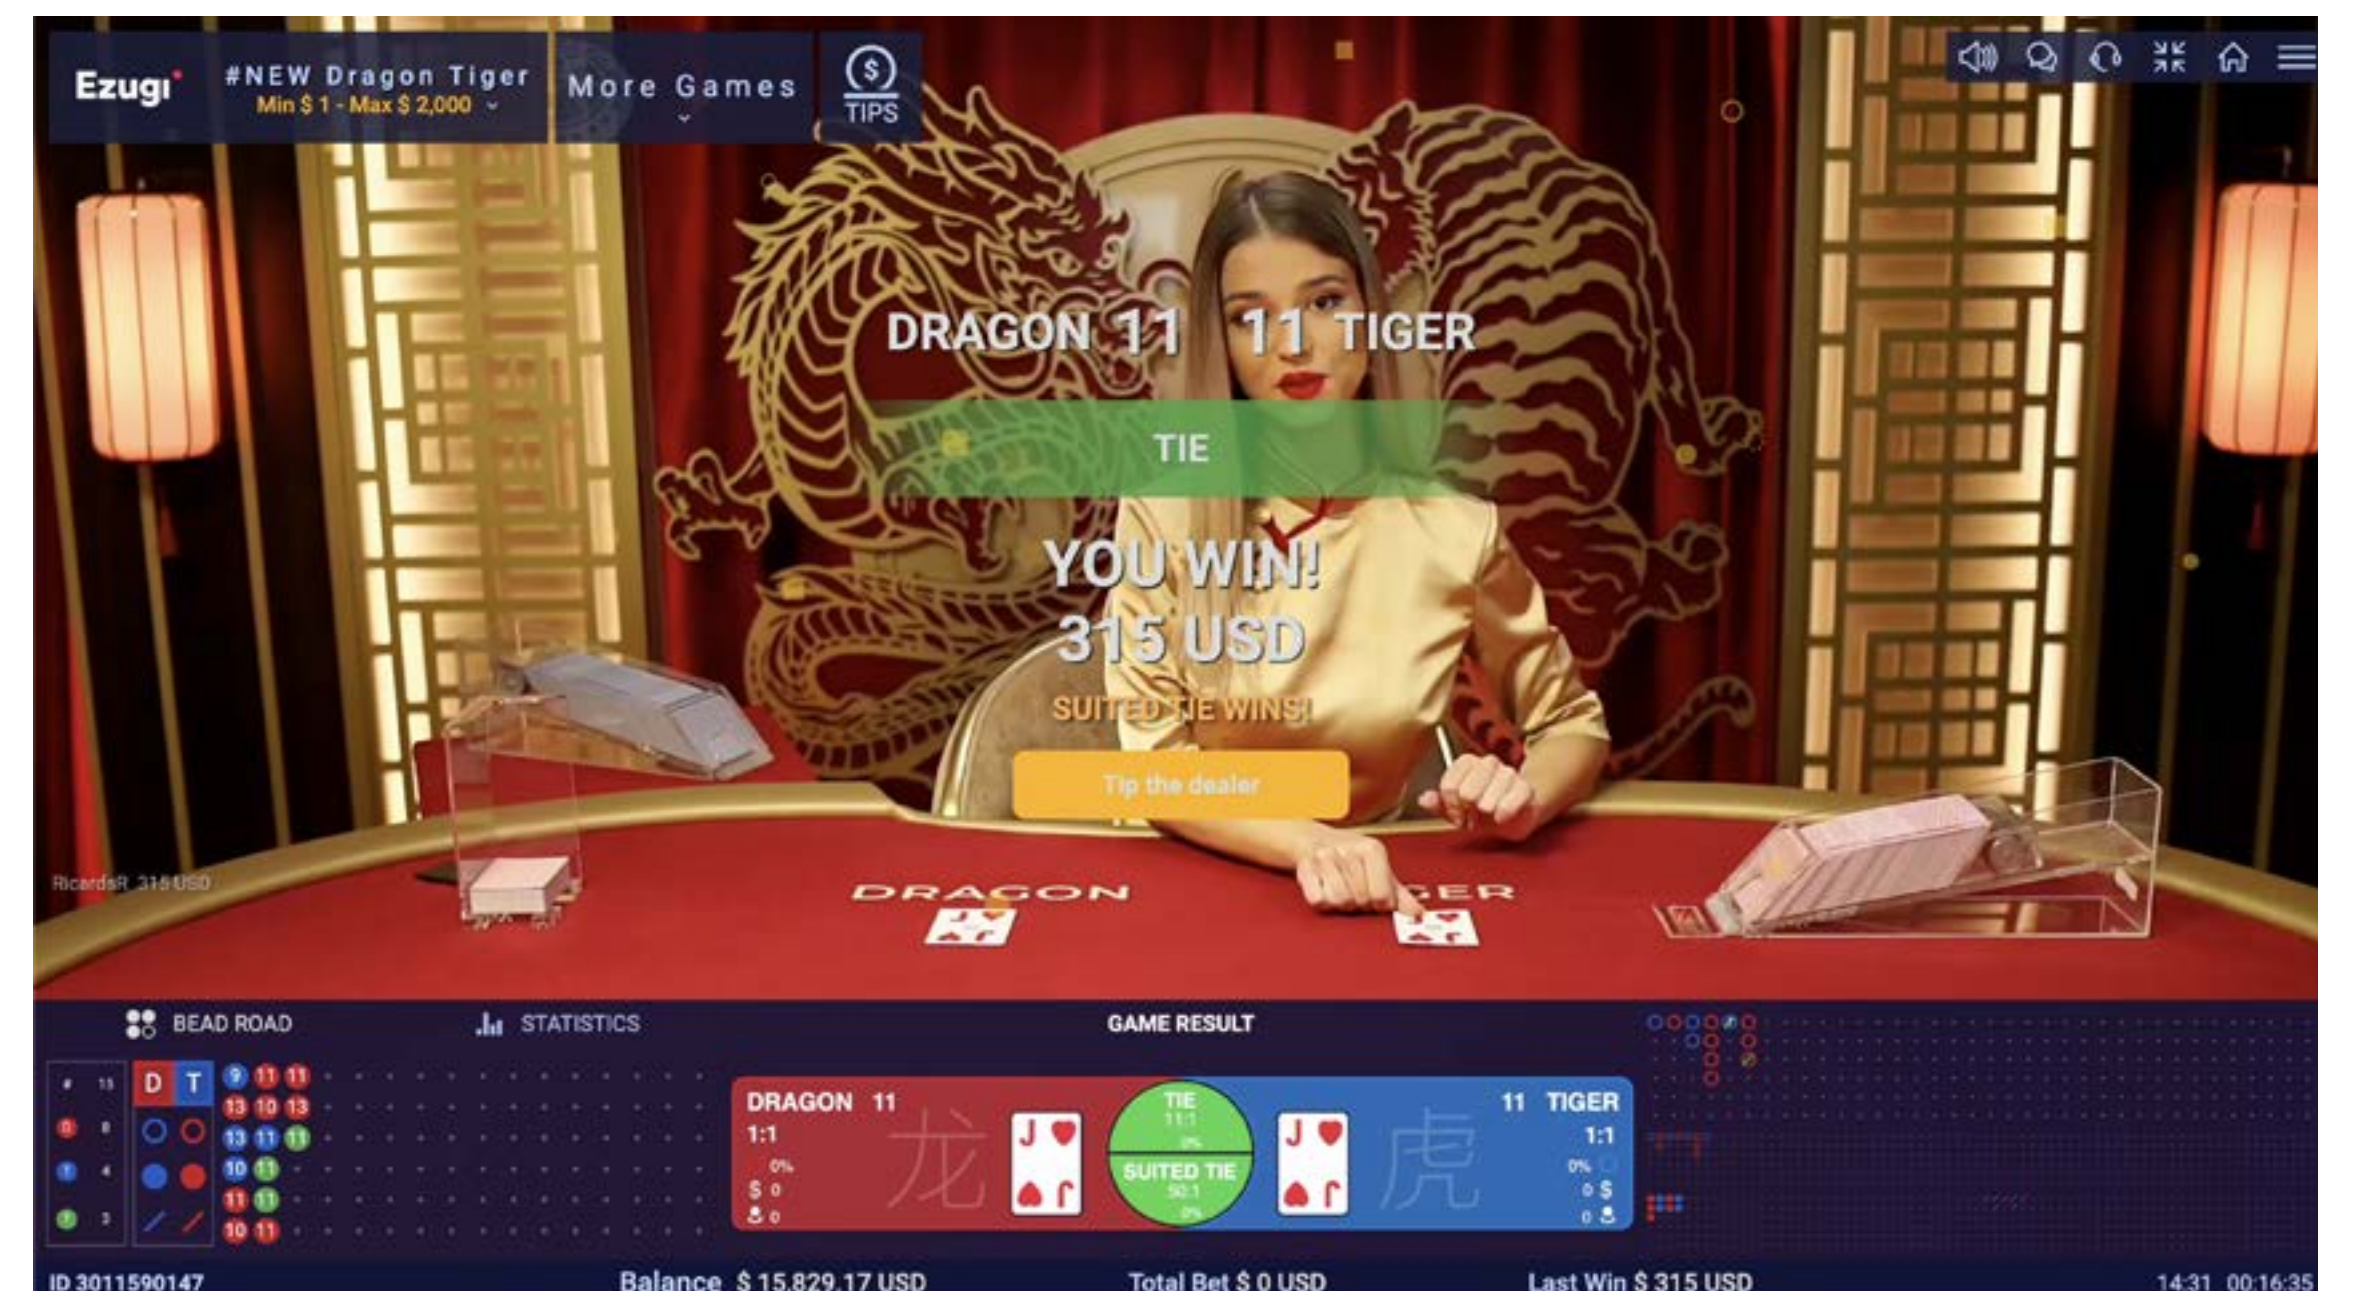

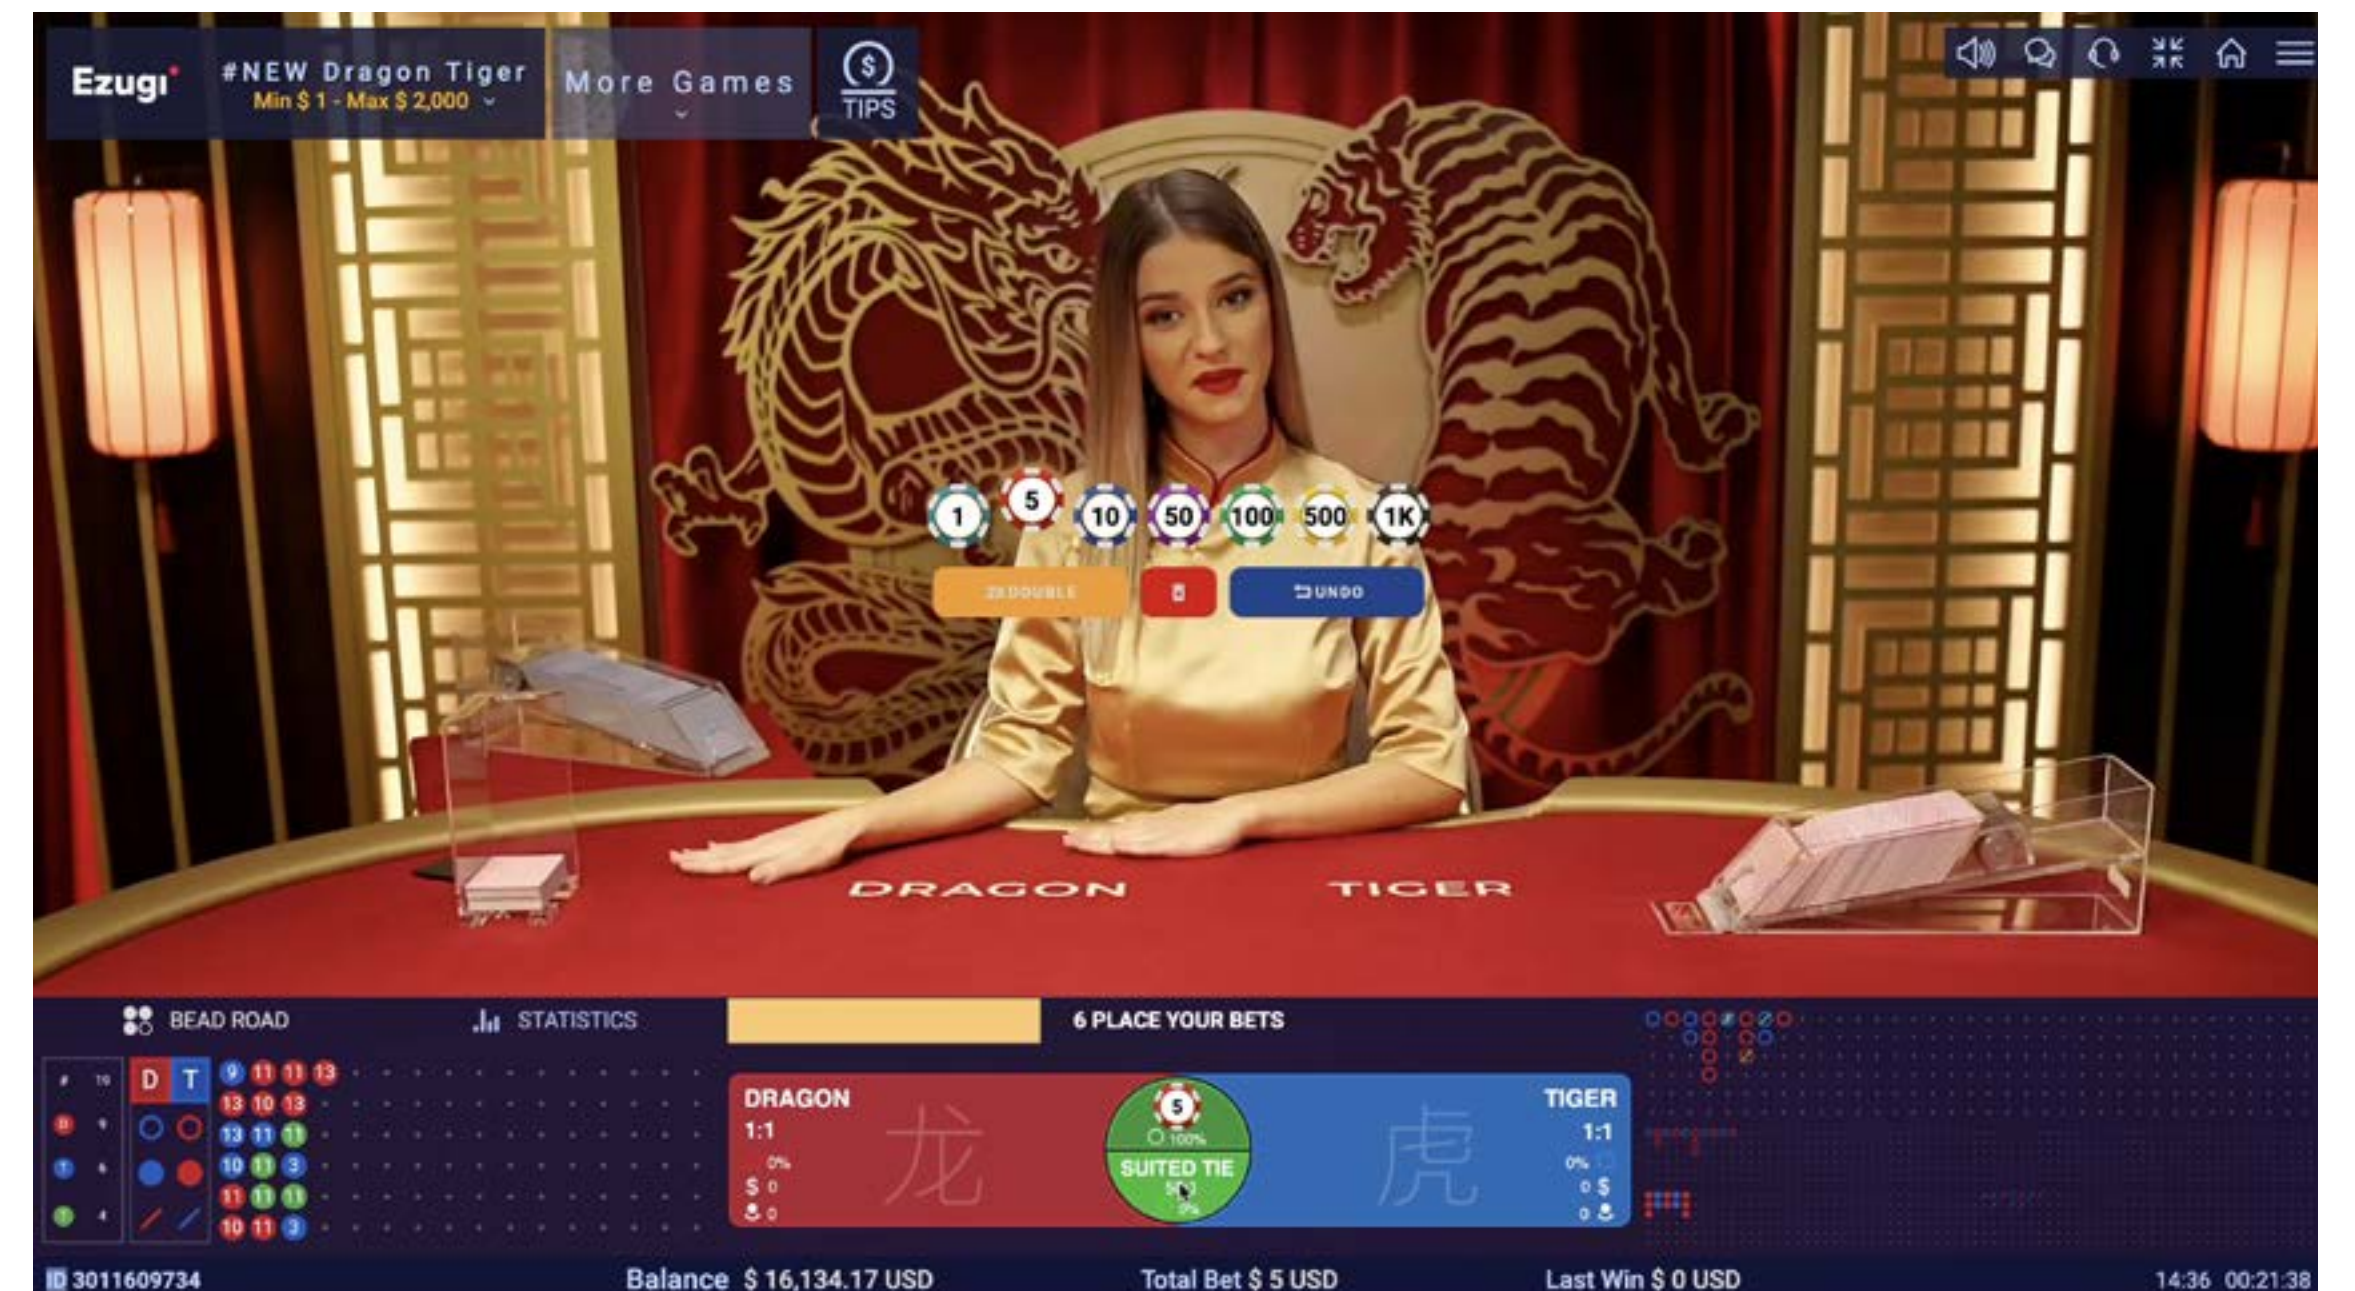

Dragon Tiger streaks and trends are recorded on various scoreboards, or 'roads'. These pictorial representations of past round results and other statistics related to the current shoe may help players to predict the results of future rounds.

The Bead Road and Big Road display the results of each past round.

For the true Dragon Tiger enthusiast, there is a series of derived roads – the Big Eye Road, Small Road and Cockroach Road. These display patterns derived from past results recorded in the Big Road.

### SHOE STATISTICS

The following statistics based on the current shoe are also displayed for players: number of completed rounds; number of Dragon wins; number of Tiger wins; number of Tie rounds.
