BACCARAT

Our standard Baccarat game delivers a truly authentic and dynamic live gaming experience. This game is available at a wide range of tables to suit all player types. Players can enjoy a variety of the side bets such as 'Perfect Pair', 'Either Pair', 'Player Pair' and 'Banker Pair'.

EZ BACCARAT

EZ Baccarat delivers an exciting live gaming experience, combining traditional gameplay with innovative twists. Players can enjoy unique side bets like 'Panda 8', which pays 25:1 if the Player wins with a total of 8 from three cards, and 'Dragon 7', offering a payout of 40:1 when the Banker wins with a total of 7 from three cards. These side bets add extra excitement and variety, making each round even more engaging. EZ Baccarat is a version of No Commission Baccarat.

KNOCKOUT BACCARAT

Knockout Baccarat follows standard Baccarat rules with the addition of 'Player Natural', 'Banker Natural' and 'Winning Total' side bets. In 'Natural Player' and 'Natural Banker' the player bets on a chance that either 'Player' or the 'Banker' will receive a 'Natural' hand of 8 or 9. In 'Winning Total' the player must predict the total card value of the winning hand.

SUPER 6 BACCARAT

Super 6 Baccarat follows the conventional rules of Baccarat and has another exciting side bet added 'Super 6'.

The 'Super 6' side bet allows you to bet on the chance that the Banker will win with a card value of 6, and pays out 15:1.

This side bet can only be placed after the main bet has been made. There is a limit on the bet amount, as it cannot exceed a certain percentage of the main bet.

OVER AND UNDER BACCARAT

Experience the excitement of Over and Under Baccarat, a fresh take on the classic game. Inspired by South Korea's Power Ball, this version lets you bet on whether the hand value will be over or under certain numbers. You win if the side you bet on (either Player or Banker) wins the main hand. This simple and engaging twist makes it a great choice for both new and seasoned players.

CASINO MARINA BACCARAT

Over The Table or OTT™ are solutions that bring together land-based and online casino play at the same on-premise table.

Our OTT™ installations enable live game action at land-based casinos to be enjoyed not only by on-premise seated players but also by a virtually unlimited number of players online.

HOW TO PLAY

The game is played with eight decks of 52 cards. Two hands are dealt – the Banker’s hand and the Player’s hand. The shoe is shuffled after seven decks.

BET ON PLAYER, BANKER AND TIE

Prior to each deal, the player can wager on whether the Player’s hand or the Banker’s hand will win by being closest to the value of 9.

The player also has the option to wager on a Tie (i.e. both the Banker’s and Player’s hands will total the same).

THE INITIAL DEAL AND CALCULATING THE VALUE OF EACH HAND

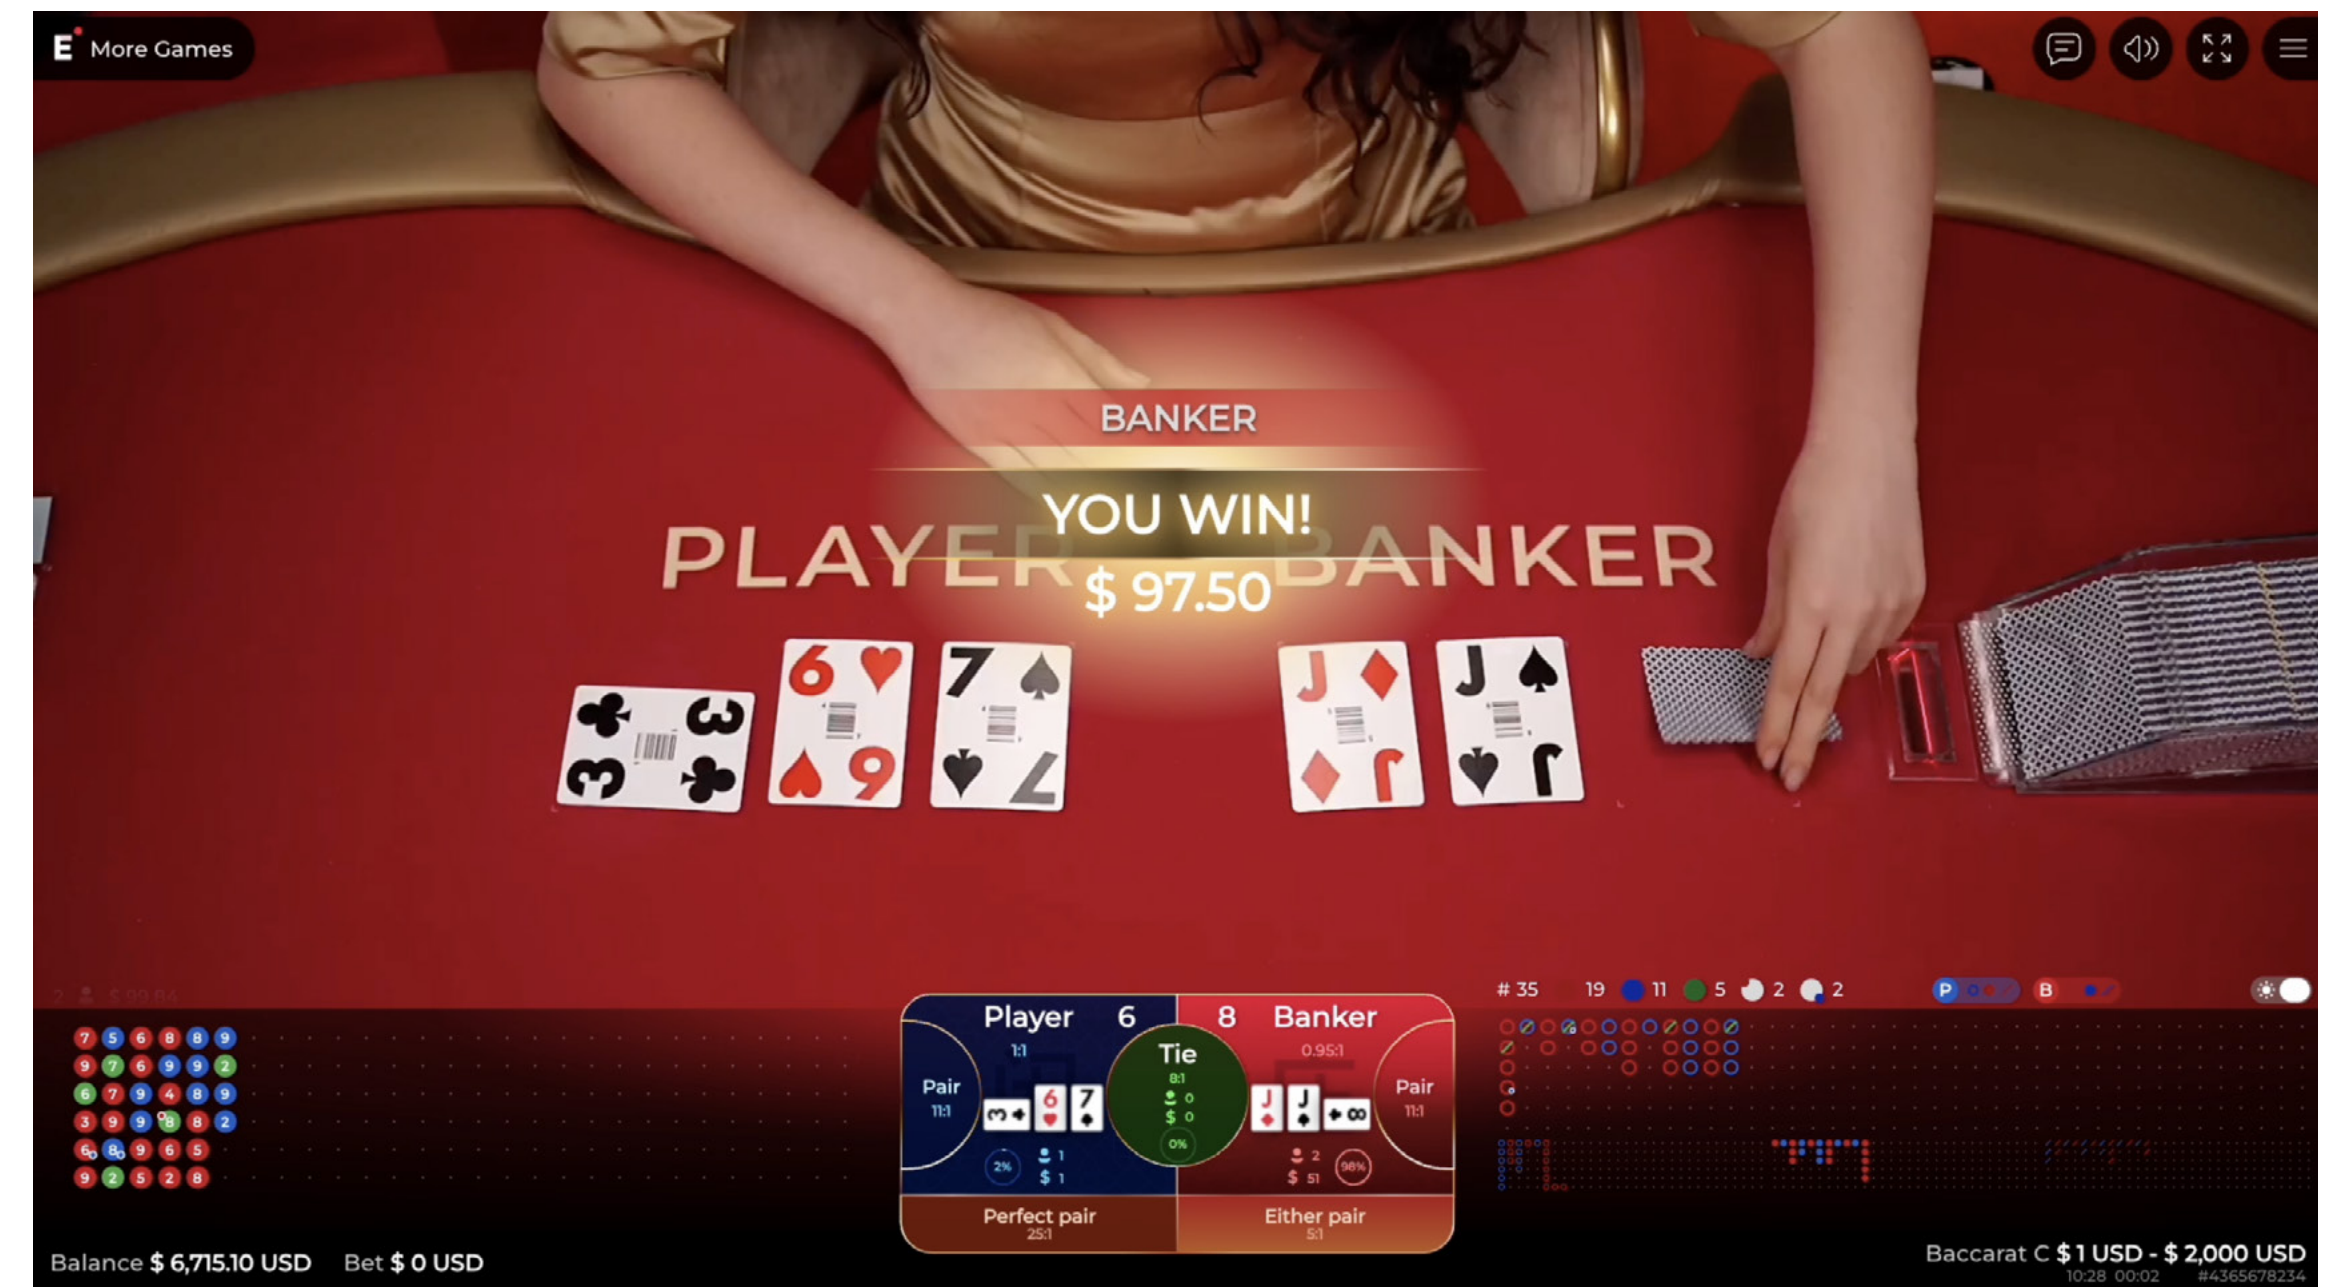

After the betting time period has expired, the Player and Banker are dealt two cards.

- Aces count as 1
- Cards from 2 to 9 are worth their numerical face values
- 10 and face cards (King, Queen, Jack) are each worth zero.

If the initial value of the hand is 10 or higher, then 10 is subtracted from the total and the figure remaining is the value of the hand.

If the value of the Player’s and Banker’s hands equal the same total, the hand is declared a Tie.

If the value of the card in either the Player’s hand or the Banker’s hand is an 8 or a 9 (‘Natural’) after receiving their initial two cards, no additional cards shall be dealt to either hand.

BACCARAT HANDS EXAMPLE

9+7=16 (hand value of 6)

THE THIRD CARD RULE

If the value of the cards in either hand after the first two cards is 0 to 7 inclusive, the hands shall draw in accordance with the 'Third Card Rule'.

After the first two cards are dealt to both the Player and Banker, the 'Third Card Rule' will determine if a third card is to be dealt. No hand receives more than three cards.

Whoever gets the hands closest to a total of 9 wins.

SIDE BETS AND OTHER FEATURES

FURTHER SIDE BETS (ENABLED BY OPERATOR)

The operator can choose whether to include additional side bets in their game package. If the operator enables these side bets, they will be available for players as part of the game (see table on the right).

LIVE BETTING STATISTICS

Players can see the total wager placed on a particular bet spot, as well as the number of players who placed bets on the bet spot.

The percentages of all bets placed on the Banker, the Player or on a Tie are also shown, and everything is updated in real time.

SCOREBOARDS (ROADS)

Baccarat streaks and trends for either the Player or the Banker are recorded in various scoreboards, or 'roads'. These pictorial representations of past round results and other statistics related to the current shoe may help players to predict the results of future rounds.

The Bead Road and Big Road display the results of each past round, while the Big Eye Road, Small Road and Cockroach Road display patterns derived from the Big Road.

Perfect Pair*	Pays 25 to 1 if two identical cards (in terms of value and suit) are dealt as the first two cards to either the Banker or the Player.
Either Pair	Pays if either the Banker or Player hand is a pair.
Banker Pair	Pays 11:1 if the Banker's first two cards are a Pair.
Player Pair	Pays 11:1 if the Player's first two cards are a Pair.
Super 6	Pays if Banker wins with a score of 6.
Natural Player/ Natural Banker	Pays if either the Banker or Player wins on a 'Natural' hand - the first two cards total 8 or 9.
Winning Total	Pays if either the Banker or Player's winning total is a specific score. Players can bet on five total scores: 1 - 4, 5 - 6, 7, 8 and 9.
Over/Under	The Player Over/Under bet only pays out if the Player wins the main hand. The Banker Over/Under bet only pays out if the Banker wins the main hand.
