

REVOLUTION ROULETTE

EXPERIENCE THE UNIQUE SPIN OF A ROULETTE WITH MULTIPLIER POCKETS!

Revolution Roulette combines the excitement of traditional Roulette with a unique twist.

Alongside the standard numbers, it features three special multiplier pockets: 2x, 3x, and 5x.

Place your bets! If the ball lands in a multiplier pocket, and on the next spin, your number comes up as a winner, your payout will be multiplied accordingly - 2x doubles, 3x triples, and 5x multiplies your reward by five.

The excitement doesn't stop there. If the ball lands in two multiplier pockets consecutively, your bet on the winning number will be multiplied by the combined value of those multipliers. For instance, landing in 2x followed

by 5x results in a 10x boost on your winning number. The game round continues until the ball lands in a traditional number pocket, maintaining suspense with each spin.
