MODERN BETTING EXCITEMENT FROM HISTORICAL ROOTS

Matka is an enthralling lottery-style betting game that has grown from its historical roots into a modern, fast-paced live casino experience.

Originally associated with betting on cotton rates between New York and Bombay, the action has transformed into a number-based game where players select digits from 0 to 9, aiming to create a winning three-digit combination.

The dealer uses a scoop to draw three balls from the pot, one by one, adding excitement and suspense to each reveal.

This blend of tradition and contemporary excitement makes Matka a unique offering, providing a dynamic and engaging experience. It's a game of chance that combines the charm of its past with the thrill of today's betting world.

KEY BENEFITS

- Thrilling and engaging gameplay
- A blend of tradition and modern excitement
- Simple rules and fast results.

HOW TO PLAY

The objective is to predict and combine numbers from 0 to 9 to create a three-digit combination that matches the winning number drawn. If you match two or three numbers, you win.

BETTING PHASE

During the betting phase of Matka, you select a combination of digits from 0 to 9 and place your bets on a specific three-digit number you think will be drawn. The dealer then draws three balls from the pot using a scoop, one at a time, revealing the winning numbers.

THE RESULT

The outcome is based on whether your three-digit combination matches the winning numbers drawn. If you match two or three digits, you win. If not, you can enter a second chance game. In this game, the last digit of the sum of your numbers is compared with the dealer's equivalent number. If they match, you win the second chance round. You can only participate in the second chance game if you initially matched one or no digits.
