MASTER THE CLAW AND UNLEASH REWARDS WITH PRECISION CONTROL!

Magic Claw is an exciting addition to the EZ Arcade series! This novel game brings the cherished nostalgia of arcade entertainment to your gaming — whether you're at home or on the move — revolutionising the live casino experience.

Players take control of a mechanical crane and its claw in an innovative game that merges elements of skill-based gameplay with the anticipation of big wins on the Bonus wheel.

Navigate the crane through two distinct phases — vertically and horizontally — with the simplicity of a single button. Strategically position the claw over multiple, coloured balls, each associated with a Bonus wheel offering enticing multipliers up to 100x.

KEY BENEFITS

- A unique concept that merges a mechanical claw with a wheel of fortune
- Bonus wheel with multipliers up to 100x
- Player-controlled crane and claw.

RETURN TO PLAYER (OPTIMAL)

HOW TO PLAY

The objective of Magic Claw is to aim the claw to pick up a coloured ball associated with a Bonus wheel and instant cash prizes.

BETTING PHASE

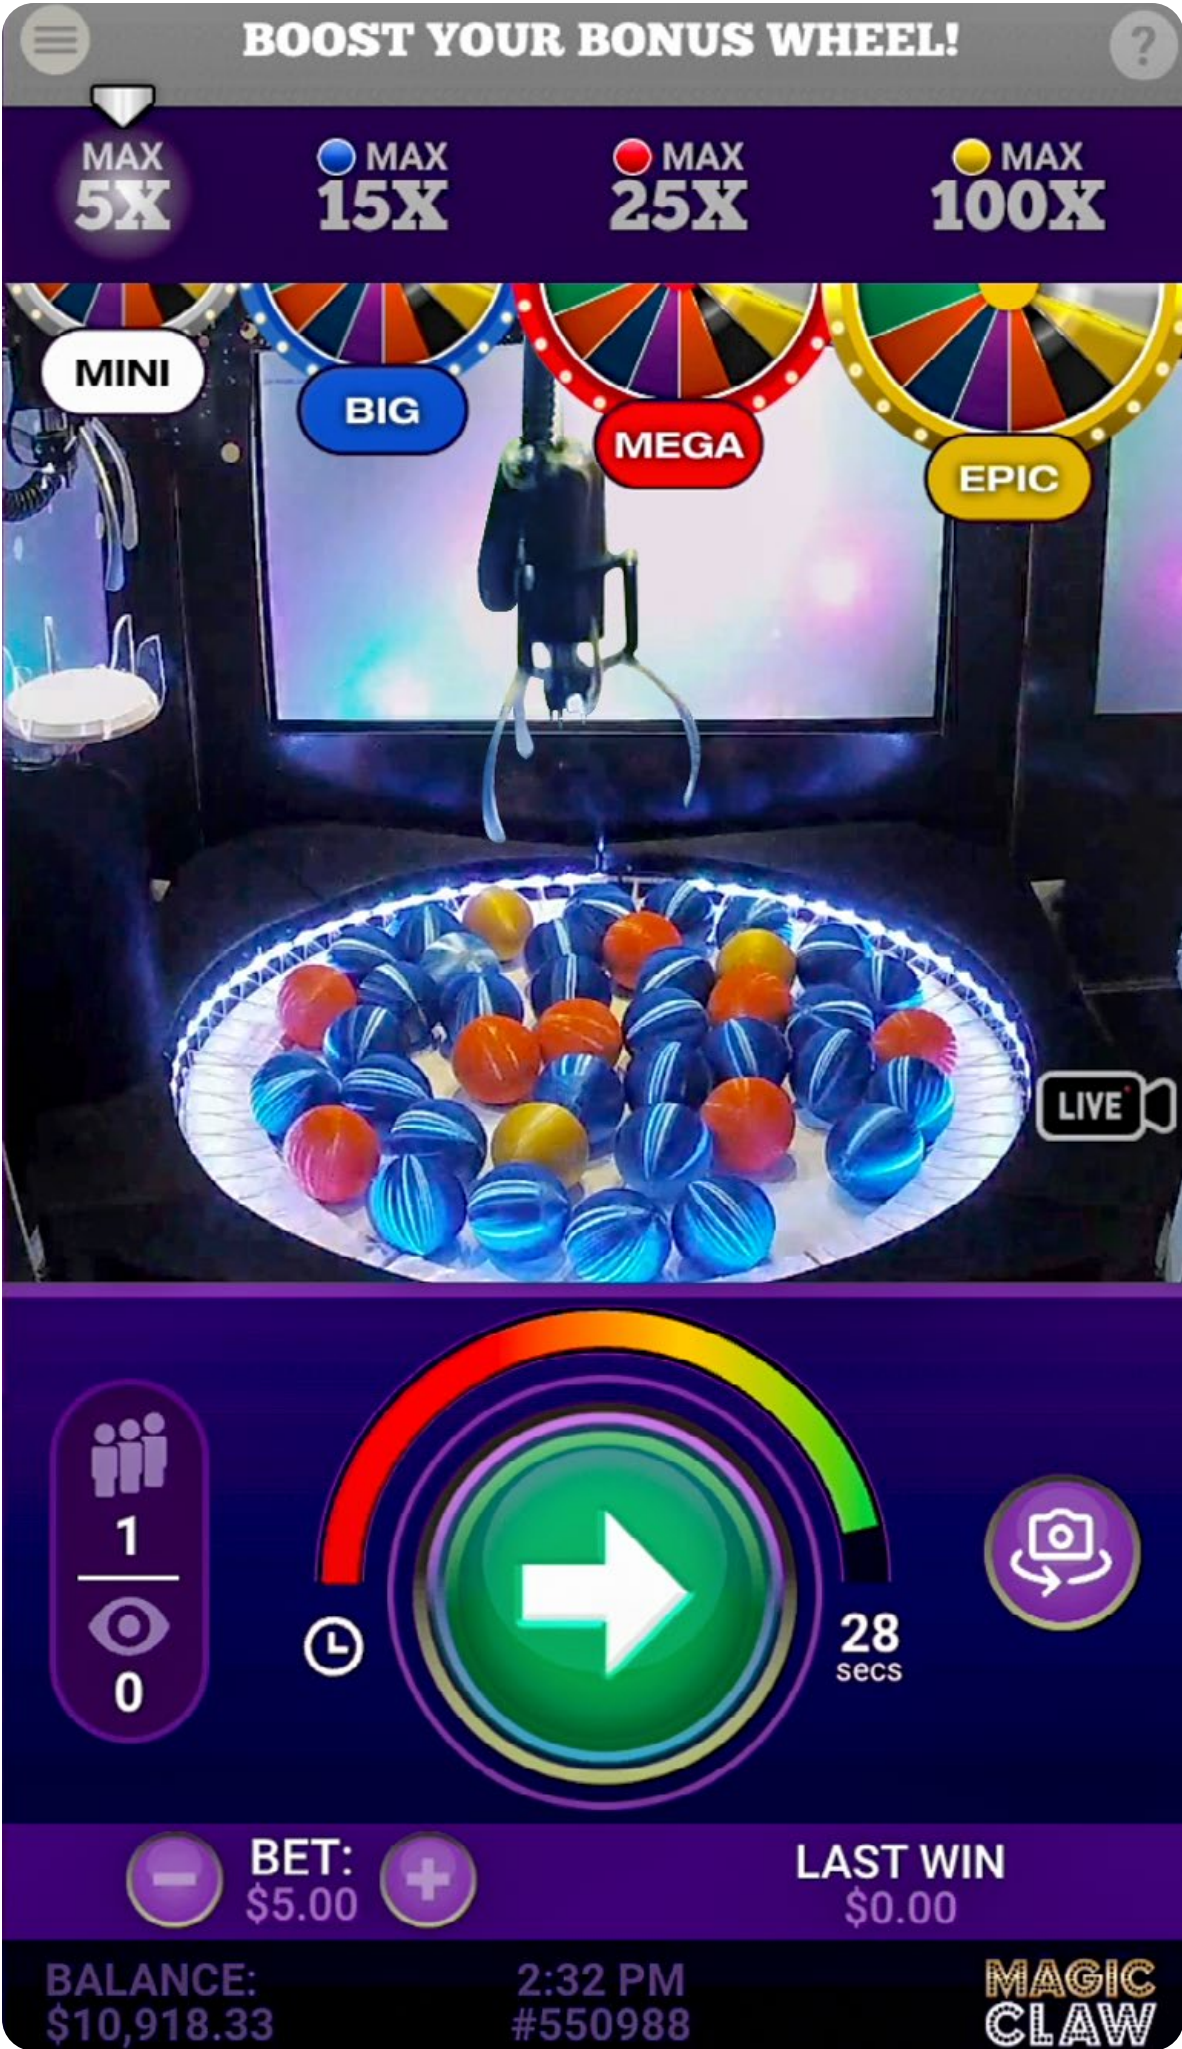

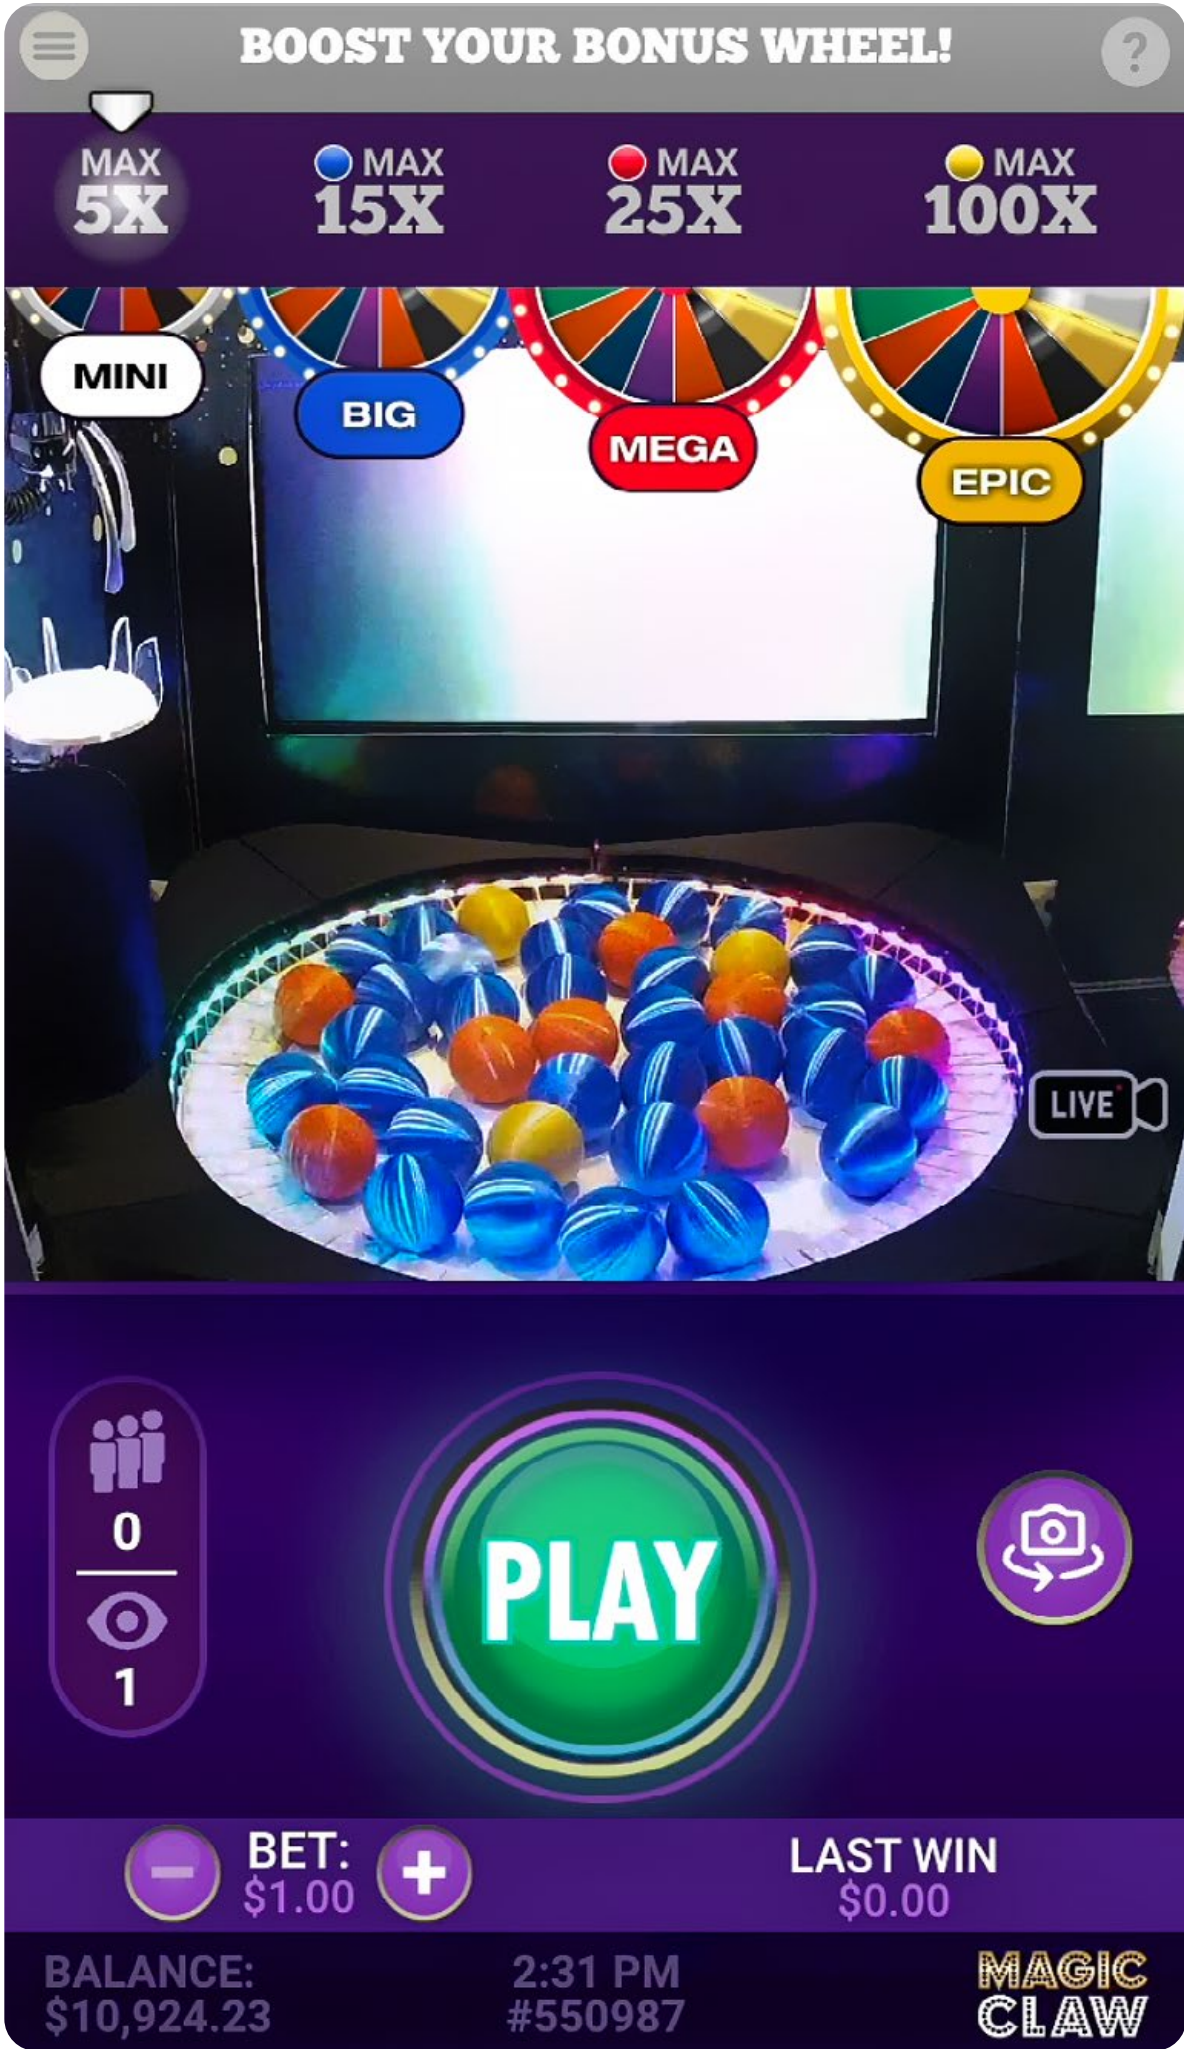

Start your round by tapping the ‘Play’ button. If the machine is occupied, you will join a queue until it’s your turn.

When your game round begins, press and hold the arrow button to move the claw in the direction indicated by the arrow; release the button to stop the claw movement.

The arrow on the button will change direction so you can navigate the claw accordingly. Release the claw to attempt to pick up a ball.

The claw will return to its initial position, and if a ball has been picked up, it’s placed in the winning ball plate. A Bonus wheel round (Big, Mega or Epic) corresponding to the picked ball’s colour will then start.

If no ball is picked up, the Mini wheel Bonus round will commence.

BONUS WHEEL ROUND

In Magic Claw, every game round concludes with a spin on one of the four Bonus wheels. The specific Bonus wheel triggered depends on the successful capture of the ball by the claw, its landing on the winning ball plate, and the colour of the captured ball.

It's important to note that if no ball is picked up, the Mini wheel Bonus round will commence instead.

- Blue ball: Big wheel
- Red ball: Mega wheel
- Gold ball: Epic wheel.

Once you enter the Bonus wheel round, the wheel will start to spin. The flapper will stop on a random wheel segment, determining your payout.
