EXPERIENCE THE UNIQUE SPIN OF A ROULETTE WITH MULTIPLIER POCKETS!

Revolution Roulette combines the excitement of traditional Roulette with a unique twist. Alongside the standard numbers, it features three special multiplier pockets: 2x, 3x, and 5x. Place your bets!

If the ball lands in a multiplier pocket, and on the next spin, your number comes up as a winner, your payout will be multiplied accordingly - 2x doubles, 3x triples, and 5x multiplies your reward by five.

The excitement doesn't stop there! If the ball lands in two multiplier pockets consecutively, your bet on the winning number will be multiplied

by the combined value of those multipliers. For instance, landing in 2x followed by 5x results in a 10x boost on your winning number. The game round continues until the ball lands in a traditional number pocket, maintaining suspense with each spin.

Take your shot at bigger rewards—spin the wheel with Revolution Roulette today!

HOW TO PLAY

The objective of the game is to predict the number on which the ball will land by placing bets that cover that particular number. The wheel features the numbers 1 to 36, a single 0 (zero), and three special multiplier pockets labelled 2x, 3x, and 5x. You can place many different kinds of bets on the Roulette table. Bets can cover a single number or a certain range of numbers - each type of bet has its own payout rate.

START OF THE GAME

To participate in the game, place a chip on the betting grid.

After the betting time has expired, the ball is spun within the Roulette wheel. The ball will eventually come to rest in one of the pockets.

You win if you have placed a bet that covers that particular number.

MULTIPLIER POCKETS

If the ball lands in a multiplier pocket, the ball is spun once more. If the ball on the next spin falls into a numbered pocket that is covered by a chip, your payout is multiplied accordingly.

A 2x multiplier will double your reward, a 3x multiplier will triple it, and a 5x multiplier will increase your payout five times.

If the ball lands in two multiplier pockets consecutively, your bet on the winning number will be multiplied by the combined value of those multipliers.
