

Game Description

Disco Danny™ is moon-walking to a casino near you! This funky new slot is simple and sweet – just like Disco Danny’s dance moves. The slot consists of 3 reels and 3 rows, featuring multi-level Free Spins, and the Golden Multiplier feature. Landing a Golden Disco Ball in the main game awards an instant win, while three Golden Balls activates 5-level Free Spins with an increasing Level Multiplier. In Free Spins, players collect Golden Ball symbols, with each adding to the total win and resetting the number of Free Spins to 3. Filling your screen with nine Golden Balls lets you advance to the next level. There are 5 levels of Free Spins: x1, x2, x3, x5, and x10. This means you can end up spinning with a x10 Level Multiplier! Land your best moves and have a blast in Disco Danny™!
