

STREET FIGHTER™ II

The World Warrior Slot

Game Description

Round 1. Fight! NetEnt's Street Fighter II: The World Warrior Slot™ gives you the chance to revisit the iconic world of Street Fighter. The game is made to feel and play very similarly to the original arcade version... the same graphics, the same emotion, and the same fist-pumping action!

Choose one of 8 characters and fight a random opponent. If you win the battle, you are awarded Beat the Boss Free Spins. There are 4 boss levels in Free Spins. Each level offers a higher multiplier. Only by beating a boss can you move to the next level. Each victory increases your chances of winning big. Keep fighting off your opponents until you come up against the final boss himself... M. Bison!

This game is loaded with Wilds. Each high-value symbol in a winning combination gives you one point. Collect 7 or more points, and the Wild Combo feature is activated, randomly placing Wild symbols on the reels, and giving you a chance to win big! A hidden bonus game allows you to control your character just in like in the original arcade!

Slot games and video games are combined to create an epic gaming adventure! It's time to finally answer the question: who is the best street fighter? Prepare for action and give it a spin

Catch phrases
