GAME FEATURES

Buffalo Collection

Every spin is numbered from 1 to 10, shown on a counter above the reels. During the first 9 spins, each time a Buffalo lands on the reels, it's counted and kept track of on a separate counter. But any Buffaloes that show up on the 10th spin are not counted. During the 10th spin, the collected Buffaloes are randomly positioned on the reels. It's possible for more than 1 Buffalo to land on the same position. Each additional Buffalo on a position increases its multiplier by 1. These symbols with multipliers are considered as multiple symbols in the calculation of winning combinations.

Wilds

Wild symbols act as substitutes for all other paying symbols and appear exclusively on reels 2, 3, and 4.

Free Spins

When you land 3, 4, or 5 Free Spins scatters, you'll trigger 8, 10, or 12 free spins respectively. If you land 2 Free Spins scatters on reels 2 and 4 during Free Spins, you'll get 2 extra spins.

The Buffaloes collected in the base game do not carry over to the bonus round. At the end of the bonus round, players are returned to the base game with the same number of collected Buffaloes they had when they entered the bonus round.

Free Spins begin with 4 Buffaloes collected. During Free Spins, the Buffalo Collection feature activates on every spin, placing the collected Buffaloes as they do in the base game. Each Buffalo that lands during the bonus round is also collected and increases the number of Buffaloes that appear for the remaining spins.

In the bonus round, Wilds landing on the reels receive a random multiplier of either x2 or x3.

About Red Tiger Jackpots

Like all Red Tiger slots, Buffalo Collector may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 90.19% RTP and adding a 1% jackpot contribution gives an overall RTP of 91.19%. The RTP of the jackpot contribution itself is 100%.
