#### About Red Tiger Jackpots

Like all Red Tiger slots, Astronaut may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 94.72% RTP and adding a 1% jackpot contribution gives an overall RTP of 95.72%. The RTP of the jackpot contribution itself is 100%.

## FEATURES IN THE GAME

## PRIZE LADDER AND SYMBOLS

Travel through galaxies where nobody has ever been before - as the sole reel of Red Tiger's Astronaut spins with 3 different symbols: Green Crystals, Red Crystals or Golden Shield.

The Prize Ladder expands on the 2 sides of the gaming grid, with teleport holes connecting its 2 ends. As the reels spin, you can move higher and higher on the Prize Ladder, which applies gradually growing win multipliers to your original bet.

## RED CRYSTAL

Your original bet and accumulated possible wins are lost whenever you land a Red Crystal without an active Golden Shield.

However, if you have a Golden Shield activated, landing a Red Crystal will break the shield and increase the prizes on the ladder. You can then choose to Continue, Take Half or Collect from the level reached.

## GOLDEN SHIELD

Landing the Golden Shield immediately activates the shield defence. The reel automatically spins, and proceeds after each landed Green Crystal to apply a gradually increasing win multiplier to your original bet.

The automatic spinning stops when you land a Red Crystal. The Golden Shield gets destroyed as it protects you from the Red Crystal. Here, you are to make the captain's choice. Will you Continue, Take Half or Collect? Your call, Chief!

## SYMBOLS

Fly by the Milky Way as you work on uncovering the mysteries of the Universe, pushing the limits of human exploration. The occasional beep serves as a grim reminder that you are travelling through time and space on a challenging intergalactic journey.

The sole reel stands in the middle of the space shuttle's control room, powering the humming engines of your spaceship. Looking through the high-temperature quartz glass that can withstand heating and cooling without cracking, you can see the endlessness of our world as we know it - or stand to explore it.

The symbols spinning on the reel form a mighty triad: Green Crystals, Red Crystals and a Golden Shield. The Prize Ladder is a strip of floating rungs, expanding on the 2 sides of the reel, thanks to a teleport mechanism that slits the Prize Ladder into 2 pieces.

## PROGRESS

By landing a Green Crystal you reach the next prize on the ladder. You can then choose to continue your journey through space to find more Green Crystals and stack more cash, bank half of it (which also halves the remaining prizes on the ladder), or you can collect the entire cash you've stacked and start a new voyage.
