GAME FEATURES

Winning Wipeout

When a winning combination occurs, the symbols lock, and others vanish for a respin. If more of the same locked symbols appear, they add to the total. Different symbols that form a winning combo also lock, resulting in two locked symbol types. Winning combos do not pay immediately but at the end of all respins, which end when no matching locked symbols appear.

Amplifiers

Each reel has a multiplier - fill it with locked symbols to boost overall wins. Multipliers in the top row change per spin.

Booster Row

Sometimes, a random booster appears. If it lands on a row filled with locked symbols, it can either transform non-winning symbols into locked ones or boost your multipliers, and sometimes it does both. No action if the row isn't filled.

Free Spins

Secure 3 or more scatters to activate Free Spins. The number of free spins range from 8 - 15, based on the number of scatters: 3 scatters give 8 spins, 4 give 10, 5 give 12, and 6 give 15. Once respins conclude, the bonus round kicks in, delivering your accumulated win. Within this bonus round, the Booster Row is always present, springing to action when a row fills with symbols. Multipliers above the reels increase as each reel fills, aligned with the number of filled reels, resetting when the bonus round ends. To elongate your bonus spins, land 3 or more Free Spins scatters, granting you 3 - 10 extra spins.

Feature Buy

For 70x the stake trigger 3 Free Spins, with the possibility of more Free Spins appearing.

About Red Tiger Jackpots

Like all Red Tiger slots, Steam Squad may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 90.15% RTP and adding a 1% jackpot contribution gives an overall RTP of 91.15%. The RTP of the jackpot contribution itself is 100%.
