Red Tiger presents: Roman Emperors

Grab your chariot and ride with Roman Emperors!

The Silver SPQR on reels 2, 3, and 4 advances the power bar of the specific emperor whose reel it lands on: Pompey the Great, Julius Caesar, or Marcus Licinius Crassus. The Gold SPQR increases all Emperor power bars by 1. Pompey the Great commands respins, clearing low-paying symbols until victory reigns. Julius Caesar brings 3 - 6 random Wilds until a win is formed. Marcus Licinius Crassus raises the stakes with win multipliers (x3, x5, x10 and x20), catapulting your riches. The Roman Emperors may even unite their strength with all 3 features in the same respin. Trigger Free Spins with 2 scatters for 12 spins, where Silver SPQR symbols command the reels and Gold SPQR unleash all 3 Emperors at once.

Join the revelry in Roman Emperors, where the empire awaits your spin to rewrite history!

GAME FEATURES

The Silver SPQR can appear on reels 2, 3, and 4, and up to 3 Silver SPQR symbols can land on the reels during a single spin. Each SPQR symbol advances a corresponding power bar meter located above its respective reel: Pompey the Great above reel 2, Julius Caesar above reel 3, and Marcus Licinius Crassus above reel 4.

The Gold SPQR symbol is an enhanced version and can only land on reel 3. During a spin, only 1 Gold SPQR can appear, and it cannot land alongside the regular SPQR symbol. The Gold SPQR symbol fills all 3 power bars simultaneously.

Pompey The Great: Triggers a respin where no low-paying symbols appear on the reels. The respins continue until a winning combination is formed.

Julius Caesar: Triggers a respin during which 3 - 6 random Wilds are placed on the reels. If the respin does not result in a win, those Wild symbols are removed, and a new respin occurs with a new set of 3 - 6 Wilds placed randomly on the reels. This process continues until a winning combination is achieved.

Marcus Licinius Crassus: Triggers a respin with a win multiplier of x3, x5, x10, or x20. This multiplier is displayed in the top-right corner above the reels while the respin is in progress. The respins continue until a winning combination appears.

When multiple features activate at the same time during a spin, they execute in a specific order: Pompey the Great triggers first by removing low-paying symbols, followed by Julius Caesar who places random Wild symbols on the reels, and then Marcus Licinius Crassus applies a win multiplier. If the initial respin does not yield a win, another respin is immediately initiated with all active features still in play. This cycle continues until a respin produces at least 1 winning combination.

When 2 Free Spins scatters appear during the base game, they trigger 12 free spins. During Free Spins, each Silver SPQR activates the corresponding Roman Emperor above its reel, while a Gold SPQR triggers all 3 Roman Emperors simultaneously. Any progress collected on the power bars during base spins does not affect Free Spins. The power bars remain hidden until the end of Free Spins, at which point they are restored for use in subsequent base spins following the bonus round. If 2 Free Spins scatters appear during Free Spins, they award an additional 12 free spins.

Silver SPQR and Gold SPQR

Roman Emperors

Free Spins

Feature Buy

Free Spins: Guaranteed to land 2 Free Spins scatters for 50x the stake.

About Red Tiger Jackpots

Like all Red Tiger slots, Roman Emperors may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 90.10% RTP and adding a 1% jackpot contribution gives an overall RTP of 91.10%. The RTP of the jackpot contribution itself is 100%.
