GAME FEATURES

Clusterbuster™ and Chain Reaction

Symbols that form winning combinations vanish, allowing new symbols to drop in and create additional wins. An inactive 3x3 cluster of locked tiles sits on the reels. The outer tiles of this cluster unlock when winning clusters form adjacent to it. Break all the outer tiles to reveal the cluster's prize. The inactive cluster resets at the start of each spin.

Ancient Orbs

Each feature is represented by a colored orb above the reels, with all orbs except the green one locked at the start. Unlock features by releasing the scarab encased in the 3x3 Clusterbuster™ in the center of the reels. Once a feature is unlocked, it will activate on the next spin, and the scarab will be encased again for future unlocking. Features can trigger randomly in future spins, and multiple features may activate in a single spin if more than 1 is unlocked.

Orb Unlock Order:

- 1. Green Orb:** Unlocked at the start, triggers a 3x3 Super Symbol, with up to 3 symbols landing in a spin, all of the same type.
- 2. Blue:** Up to 3 Blue 3x3 Super Wilds land on the reels.
- 3. Red:** A Red 3x3 Super Wild lands and, after a win, transforms into 9 scarabs that become Wild symbols.
- 4. Purple:** A Red 3x3 Super Wild with a multiplier lands, turns into 9 scarabs, and the multiplier applies to all wins involving these Wilds.

Once the Blue, Red, and Purple orbs are unlocked, the Free Spins Scarab is encased in the Clusterbuster™, awarding 10 free spins each time it's released. The Free Spins Scarab remains fixed in place after activation.

Free Spins

Triggered every time the Free Spins Scarab is released, awarding 10 free spins. The Clusterbuster™ does not appear during the bonus round, and Free Spins cannot be retriggered. During Free Spins, there is an increased chance of activating 1 or more of the coloured orb features. At the end of Free Spins, the Free Spins Scarab is enclosed again and may be released in future spins to award additional Free Spins.

Bonus Buy

Winning is as straightforward as landing number symbols on the central payline of a one-row grid with 4 reels, where these numbers work together to create the stake multiplier. The diamond symbol has no value and represents a blank position.

About Red Tiger Jackpots

Like all Red Tiger slots, Egypt Clusterbuster™ may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 90.15% RTP and adding a 1% jackpot contribution gives an overall RTP of 91.15%. The RTP of the jackpot contribution itself is 100%.
