GAME FEATURES

Gentleman Pig Wild takes over reels 2, 3, 4, and 5, though never 2 and 3 together. This super wild packs a punch with a symbol multiplier from x2 to x7. Gentleman Pig Wild stays put until all chain reactions are done.

Gentleman Pig Wild

3 or more Scatters trigger the Hold and Respin bonus round. At the start the bonus round, spin the Wheel to win Cash symbols and Saves, both worth 2x your current stake. Cash symbols can be 2, 3, 4, 5, 10, or 15 in number, while Saves range from 1 to 5. Cash symbols won from the Wheel are randomly placed on the reels and remain locked throughout Free Spins. Saves are displayed above the reels, ready to rescue your spins!

Hold and Respin

In the bonus round, only Cash symbols, special symbols, or empty symbols can land, and each symbol position represents a different reel. Cash symbols contain random cash prizes, serving as stake multipliers. These multipliers can be 1x, 2x, 3x, 5x, or 10x the current stake. Once Cash symbols land, they lock in place for the entire bonus round, ensuring thrilling wins! Any Cash symbol or special symbol landing resets the spins to 3. While Saves are available, if no new Cash or special symbols appear for 3 consecutive spins, a Save is used to add a Cash symbol to a random empty position on the reels. If there are still empty positions, the bonus continues with spins reset to 3. When all reel positions are filled with locked symbols, any remaining Saves contribute to the total bonus win.

There are 7 special symbols, similar to the non-royal symbols in the base game. However, in Hold and Respin, these special symbols behave differently and do not pay out as they do in the base game.

Gentleman Pig

Gentleman Pig holds a Cash value, initially set at 5x the stake, displayed above the reels. Landing Gentleman Pig boosts the values of Cash, Money Bag, and Purse symbols on the reels by its current value. The value of Gentleman Pig increases in subsequent spins as follows: 5x, 10x, 15x, 25x, 50x, 100x, and resets after the bonus round. Gentleman Pig symbols do not lock on the reels.

Lady Pig

Lady Pig carries a multiplier, starting at x1 and shown above the reels. Each Lady Pig landing collects the values of Cash, Purse, and Money Bag symbols, leaving a Present on its spot with their combined value, multiplied by Lady Pig's current multiplier. The multiplier of Lady Pig increases by 1 for each landing symbol, and it resets at the end of the bonus round. Presents left by Lady Pig remain locked on the reels throughout the bonus round.

Money Bag

The Money Bag contains a random cash value, serving as a stake multiplier. Possible multipliers include 30x, 50x, 75x, or 100x the current stake. When Money Bag symbols land, they remain locked on the reels for the entire bonus round.

Piggy Bank

The Piggy Bank symbol carries a random cash value, serving as a stake multiplier of 1x, 2x, 3x, 5x, or 10x the current stake. When it lands, it breaks and its value spreads to adjacent positions (horizontally, vertically, and diagonally), either placing a Cash symbol with this value on empty positions or adding its value to existing Cash symbols. Piggy Bank symbols do not lock on the reels.

Purse

Purse symbols collect Cash symbols on the reels, adding their values to the Purse until it holds at least 5. Purses lock on the reels for the bonus round, and if multiple Purses are present, they all collect Cash symbols until reaching the minimum.

Credit Cards

Each Credit Card symbol landing boosts the current values of both Gentleman Pig and Lady Pig above the reels. For Gentleman Pig, the value increases to the next possible level, while for Lady Pig, the multiplier goes up by 1. If Gentleman Pig has reached its maximum value, Credit Cards only affect Lady Pig's multiplier. These symbols do not lock on the reels.

Key

Key symbols add an extra row atop the reels, up to a max of 7 rows. However, once all rows are unlocked, Key symbols cease to land. They do not lock on the reels.

If multiple special symbols land in a spin, they activate in this order: Piggy Bank, Credit Cards, Gentleman Pig, Lady Pig, Purse, Key. The bonus round concludes if no Cash or special symbols land in 3 consecutive spins after all Saves have been used, or if all positions on the reels are filled with locked symbols. Upon ending, the player receives the combined prize of all Cash, Purse, Money Bag, and Present symbols on the reels, along with the value of any remaining Saves.

About Red Tiger Jackpots

Like all Red Tiger slots, Piggy Riches 2 Megaways™ may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 90.14% RTP and adding a 1% jackpot contribution gives an overall RTP of 91.14%. The RTP of the jackpot contribution itself is 100%.
