RED TIGER

Red Tiger presents: Cyber Attack

Enter the neon-infused digital world of cyberpunks and hackers in Red Tiger's Cyber Attack. Put your hacking skills to the test as you take on the role of the mastermind hacker hiding in the shadows.

On any spin, a Breach Attempt may randomly trigger. When a Breach Attempt is diverted, it's time for Plan B, as every diverted Breach Attempt triggers 1 of the 3 Feature Hacks. With Symbol Hacks, Wild Hacks, and Multiplier Hacks, hologram symbols hover on the gaming grid. Every 6th Breach Attempt is a guaranteed success, leading you to Free Spins, where a random symbol gets infected. The more infected symbols you collect during the bonus round, the better your winning chances are at the end of Free Spins.

Are you ready to rule the cyberworld as the ultimate mastermind hacker? Use your hacking abilities and navigate through the system in Cyber Attack by Red Tiger.

FEATURES IN THE GAME

BREACH (FREE SPINS)

Breach Attempts may be diverted by the firewall at any time. However, success is guaranteed on every 6th Breach Attempt when the progress bar fills.

In the bonus round, you receive 6 Free Spins. During the bonus round, the Free Spins counter may glitch, awarding you 1-3 additional Free Spins.

Feature Hacks may randomly occur during Free Spins. 1 feature may activate on a single spin.

The Hijack Virus infects a random symbol. It is stored above the gaming grid whenever the symbol appears on the reels. You can hijack a maximum of 20 symbols. If the symbol multiplier appears on an infected symbol, it enhances the number of infected icons stored. Any Wilds appearing anywhere become infected.

The hijacked symbols fill the empty gaming grid when your Free Spins run out. When you have a maximum of 20 icons, the whole grid is covered by the same symbol.

SYMBOLS

This cyberpunk world is full of hackers who run malicious codes, in an attempt to break into systems and test the limits of binary code.

The low-paying symbols are the highest-scoring traditional card values in neon-coloured representations: lilac 10, blue J, green Q, pink K, and yellow A.

The high-paying symbols are digital files containing computer icons with the corresponding colours: a lilac pen drive, a blue bug, a green security eye, a pink warning alert, and a yellow skull with glowing red eyes. The Wild is a golden W hologram floating above a top-notch holo-pod.
