Red Tiger presents: Serpent King

A new King slithers onto the reels! Following in the footsteps of Primate King and Zillard King, Serpent King claims the throne, coiling the reels in his sinister embrace.

Collect Gold Coins to unlock 3 upgrades for the Serpent Wild: the 1x4 Super Wild, the deadly Super Multiplier Wild up to x5, and the relentless Locked Super Increasing Multiplier Wild, which grows stronger with consecutive wins.

The Serpent Wild can pass its multiplier to the Multiplier Stone, lurking above the reels to strike with the next Serpent Wild. When no win occurs, the Serpent Wild may unleash Serpent Respins, locking a chosen symbol type for cascading respins and greater rewards.

The Serpent King coils tighter with every spin—his reign begins now!

GAME FEATURES

Gold Coins and Progress Bar

Gold Coins can appear in the bottom-right corner of any symbol on the reels if there are Serpent Wild upgrades left to unlock. When a Gold Coin lands on the same spin as a Serpent Wild, it is collected and added to the Serpent Wild progress bar.

Collect 30 Gold Coins to unlock the first upgrade, 60 Gold Coins to unlock the second upgrade, and 90 Gold Coins to unlock the third and final upgrade.

The Serpent Wild progress bar is displayed on the right side of the reels until all 3 Serpent Wild upgrades are unlocked. It tracks the total number of collected Gold Coins needed to activate each upgrade. Once all 3 upgrades are unlocked, the progress bar transforms into a 6th reel. This reel does not contain any card suit symbols.

Serpent Wild

The Serpent Wild substitutes for all paying symbols. As Gold Coins are added to the Serpent Wild progress bar, up to three upgrades can be unlocked:

- 1. Super Wild:** The Serpent Wild becomes a 1x4 super symbol.
- 2. Super Multiplier Wild:** A random multiplier (x2, x3, or x5) is applied to the Serpent Wild.
- 3. Locked Super Increasing Multiplier Wild:** The Serpent Wild becomes a Locked Wild. It stays on the reels until it participates in at least 1 win, followed by a non-winning spin. For each consecutive win it participates in, the win multiplier increases by +1. The Serpent Wild unlocks after the first non-winning spin following at least 1 winning spin. If the Locked Wild is on reel 5 and has not yet participated in a win, it may randomly move to 1 of the first 4 reels.

Multiplier Stone

There is a chance for the Serpent Wild's multiplier to be stored in the Multiplier Stone above the reels. This stored multiplier is added to the next Serpent Wild that lands.

Serpent Respins

When the Serpent Wild lands on the reels but no win occurs, it may mark 1 symbol type on the reels. All symbols of the selected type will be locked on the reels, and a respin will be triggered. Respins continue as long as new symbols of the chosen type land. Only win lines consisting of the selected symbol type are awarded at the end of the feature.

About Red Tiger Jackpots

Like all Red Tiger slots, Serpent King may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 90.16% RTP and adding a 1% jackpot contribution gives an overall RTP of 91.16%. The RTP of the jackpot contribution itself is 100%.
