

Red Tiger presents: Play With the Devil Megaways™

He’s back, keys clinking, flames dancing... this is Play With the Devil Megaways™, where the Devil’s out to burn every chest, unlock every coin and set the reels on fire!

The Horizontal Reel fires across the top of the reels, delivering the Devil Wild straight into the action. The Devil Wild lands only on the Horizontal Reel, stays in play after wins and may shift left if he’s part of a winning combination, unlocking any Devil Coins or Bonus Prizes he lands with. Devil Coins hold up to 2.5x, while Bonus Prizes include Mini, Minor, and introducing the all-new Megacent, calculated by multiplying the Megacent Coin value by the Megaways™ in the spin. Max Ways can trigger at random, filling all reels with 7 symbols for 117,649 Megaways™. Land the Devil and a Megacent together for a shot at the biggest prize. Missed the Devil Wild? Don’t worry, he might just nudge his way in after the spin and when he’s already in play, extra Bonus Prizes can sneak in too.

The Devil’s fireballs can ignite one or both chests, awarding 6 or 12 free spins. During Free Spins, the Devil sticks around and can retrigger the bonus. Feature Buy lets you choose between a guaranteed Devil Wild or Free Spins.

The Devil’s got the keys, but the treasure could be yours...

GAME FEATURES

Horizontal Reel

A horizontal reel runs across the top of the main reels, spanning from the 2nd to the 5th reels. It moves from right to left.

Devil Wild

The Devil Wild lands only on the Horizontal Reel, stays in play after wins and may shift left if he's part of a winning combination, unlocking any Devil Coins or Bonus Prizes he lands with. If the Devil Wild lands in the same spin as Devil Coins and/or Bonus Prizes, their combined prize is awarded after all chain reactions are complete.

Devil Coin

Devil Coin scatters can land on any reel except the horizontal reel. They carry a stake Multiplier prize of 0.5x, 1x, 1.5x, 2x, or 2.5x.

Bonus Prizes

There are 4 types of instant win bonuses: Mini, Minor, 1 Megacent, and 10 Megacents. Each bonus is represented by a unique symbol and awards a stake multiplier prize. The Mini and Minor Bonus Prizes are fixed at 5x and 15x, respectively. The 1 Megacent and 10 Megacents Bonus Prizes are variable, with their stake multiplier calculated by multiplying the value of the Megacent Coin by the number of Megaways™ in the spin. The Megacent Coin values are 0.01 for 1 Megacent and 0.10 for 10 Megacents.

Nudge

Randomly, in a spin where Devil Coins and/or Bonus Prizes have landed on the reels but the Devil Wild did not appear, the horizontal reel may nudge at the end of all chain reactions to land the Devil Wild. In addition, when the Devil Wild has landed, at the end of all chain reactions, any reels that do not hold Devil Coins or Bonus Prizes may randomly nudge to land Bonus Prize symbols.

Free Spins

Each time the Devil lands he throws fireballs at one or both chests above the reels. Whenever this happens there is a chance that one or both chests will randomly activate to trigger Free Spins. If only one chest activates, 6 free spins are awarded. If both chests activate, 12 free spins are awarded. During the bonus round the Devil remains on the horizontal reel and throws fireballs at the chests on each spin for a chance to retrigger with the same conditions.

Feature Buy

- 1. Devil:** Guarantees the Devil Wild and at least 1 Devil Coin or Bonus Prize in the spin for 10x the stake.
- 2. Free Spins:** Guarantees the Devil Wild and triggers Free Spins for 80x the stake.

About Red Tiger Jackpots

Like all Red Tiger slots, Play with the Devil Megaways™ may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 90.14% RTP and adding a 1% jackpot contribution gives an overall RTP of 91.14%. The RTP of the jackpot contribution itself is 100%.
