

Red Tiger presents: Clover Craze

Unearth the luck and magic of Red Tiger’s Clover Craze!

Green Clovers sprout on reels 2, 3, and 4, multiplying to cover entire reels for wins that’ll have you grinning like a leprechaun. The Golden Clover, a rare find on the 3rd reel, brings extra magic to the game. Join the celebration as a Golden Clover and Green Clovers unite, creating a Big Golden Clover, 2x3 in size, with a triple win multiplier. Strike gold when a Golden Clover teams up with Green Clovers on both adjacent reels, forming a Huge Golden Clover, 3x3 in size, with a sevenfold win multiplier! When a Golden Clover meets a Seven or Bell on an adjacent reel, it triggers Cash Respins. Watch as it multiplies and bestows cash prizes (3x for Sevens, 2x for Bells).

May the luck of the Clovers be with you!

GAME FEATURES

Green Clover

Like lucky Green Clovers, these Wilds pop up on reels 2, 3, and 4, and when they see a chance to help you win, they multiply to cover the whole reel.

Golden Clover

The Golden Clover appears only on the 3rd reel, triggering special features when landing in the middle position, and transforms into a Green Clover if not in the centre. The special features include:

Golden Clover x3

When a Golden Clover lands in the middle of the 3rd reel and a Green Clover appears on an adjacent reel, a Big Golden Clover, 2x3 in size, with a x3 win multiplier is formed.

Golden Clover x7

If a Golden Clover lands in the middle of the 3rd reel and Green Clovers appear on both adjacent reels, a Huge Golden Clover, 3x3 in size, with a x7 win multiplier is created.

Golden Clover Cash Respins

Landing a Golden Clover in the middle of the 3rd reel, along with a Seven or Bell on an adjacent reel, triggers Cash Respins. The Golden Clover clones itself, pays out wins, turns same-type symbols golden with cash prizes (3x for Sevens, 2x for Bells), and if both Sevens and Bells are adjacent, Sevens take precedence. Afterward, Respins begin, offering 3 rounds with the triggering symbol, resetting on new symbol landings, and concluding after 3 symbol-less rounds. All cash prizes, including those from Golden Clovers, are awarded post-respins.

Players receive 3 respins, where only the symbols that initiated them are active. If a new symbol of that type lands, the respins counter resets to 3. Respins conclude when no new symbols of that type appear in 3 consecutive respins.

At Golden Clover Cash Respins end, all cash prizes, including those from Golden Clovers, are tallied and awarded to the player. It's possible to trigger both the Golden Clover x3 and Cash Respins features. In such cases, the x3 win multiplier of the Big Golden Clover symbol is removed at the start of the Cash Respins and does not apply to the accumulated wins. The 2x3 Golden Clover is considered as 6 cash prize symbols.

Golden X Clover

When a Golden Clover lands in the middle of the 3rd reel without Green Clovers, Sevens, or Bells on adjacent reels, it clones to create an X shape on the top and bottom positions of both adjacent reels.

Feature Buy

- 1. Green Clover for 5x the stake.
- 2. Golden Clover in the middle reel for 25x the stake.
- 3. Golden Clover x3 for 50x the stake.
- 4. Golden Clover x7 for 500x the stake

About Red Tiger Jackpots

Like all Red Tiger slots, Clover Craze may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 90.08% RTP and adding a 1% jackpot contribution gives an overall RTP of 91.08%. The RTP of the jackpot contribution itself is 100%.
